---

## Welcome

Congratulations on purchasing an HP USB PC web camera.

This document gives you instructions for assembling your USB web camera and also gives you the camera's limitations.

### Kit Contents

Your HP USB PC web camera kit contains:

- 1 HP USB PC web camera
- 2 HP USB PC camera bases
- 1 Software and Drivers CD-ROM
- 1 HP support part-number sticker
- 1 *Installation Guide*
- 1 *Attention Windows 2000 Users* document
- 1 *Information Guide* (this document).

---

## Known Limitations

The software and drivers CD-ROM contains applications that enable you to use your USB web camera on the Internet. The applications enable you to:

- create a web album
- create a web cam
- broadcast a live video.

These functions may not work if you are in a large office environment with a firewall and proxies. In this event, contact your network administrator.

The following functions will still operate:

- Video and picture creation
- Video emails.

---

## Assembling Your USB Camera

Two camera bases are supplied with your HP USB PC web camera.

The camera rest (**a**) is for use with CRT and some LCD monitors. HP recommend that you use the camera stand (**b**) with OmniBooks and most LCD monitors.

- 1 Assemble the camera eye and base as shown.
- 2 Place the HP support part-number sticker on the rear of the USB camera eye.

---

### **NOTE**

The base or fixing clamp may look different on your model.

## Using Your USB Camera

### NOTE

Your HP USB web camera is supported on Windows 98 SE, Windows 2000 and Windows XP operating systems.

Windows 2000 users must read the *Attention Windows 2000 Users* document supplied in the kit.

Windows XP automatically detects your USB camera when it is first connected and uses the appropriate native driver. There is no need to use the CD-ROM provided. For software installation instructions, refer to the Logitech *Installation Guide*. Under Windows XP, not all features of your USB camera will be supported.

### Positioning Your USB Camera

Refer to the Logitech *Installation Guide* for information on connecting your USB camera to your computer.

Once your computer has restarted, the Logitech QuickCam Test window will open. The window shows the view from your USB camera.

Make sure that your USB camera is positioned centrally on top of your monitor. If you are using your USB camera with the camera fixing clamp, place it on your OmniBook or LCD monitor as shown in the picture below:

If you are using your USB camera with the camera base, place it on your monitor with the Logitech logo on the camera rest facing you (see picture below). Direct the lens by tilting the camera eye upwards or downwards until the picture in the Logitech QuickCam Test window is satisfactory.

### Adjusting the Focus

Turn the grey focus ring clockwise or anti-clockwise to sharpen or soften the focus until the picture in the Logitech QuickCam Test window is satisfactory.

---

## HP Hardware Warranty

This HP accessory is covered by a limited hardware warranty for a period of one year from the date of purchase by the original end-user. The type of service provided is return to an HP or repair-authorized reseller service-center. At Hewlett-Packard's discretion, a defective accessory will be repaired or replaced by a new unit, either of the same type or of an equivalent model. If this accessory is purchased and used together with an HP PC, it will be covered by the warranty of the PC, under the same conditions of service and duration. Please, refer to the warranty statement provided with your HP PC for warranty limitations, customer responsibilities and other terms and conditions.

FOR CONSUMER TRANSACTIONS IN AUSTRALIA AND NEW ZEALAND: THE WARRANTY TERMS CONTAINED IN THIS STATEMENT, EXCEPT TO THE EXTENT LAWFULLY PERMITTED, DO NOT EXCLUDE, RESTRICT OR MODIFY AND ARE IN ADDITION TO THE MANDATORY STATUTORY RIGHTS APPLICABLE TO THE SALE OF THIS PRODUCT TO YOU.

## Regulatory Information

### FCC Class B (for USA Only)

#### Federal Communications Commission Radio Frequency Interference Statement Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the distance between the equipment and the receiver.

Connect the equipment to an outlet on a different circuit to the one the receiver is connected to.

Consult your dealer or an experienced radio/TV technician for help.

Hewlett-Packard's FCC Compliance Tests were conducted using HP-supported peripheral devices or modifications not expressly approved by Hewlett-Packard could void the user's authority to operate.

For compliance information ONLY, USA contact: Hewlett-Packard Company, Corporate Product Regulations Manager, 3000 Hanover Street, Palo Alto, CA 94304. Phone (650) 857-1501.

### Notice for Canada

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numerique de la Classe B est conforme à la norme NMB-003 du Canada.

### Notice for Japan

この装置は、情報処理装置等電波障害自主規制協議会(VCCI)の基準に基づくクラスB情報技術装置です。この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用されると、受信障害を引き起こすことがあります。  
取り扱い説明書に従って正しい取り扱いをして下さい。

### Notice for Korea

#### 사용자 안내문 (B급 기기)

이 기기는 비업무용으로 전자파장해결정을 받은 기기로서, 주거지역에서는 물론 모든 지역에서 사용할 수 있습니다.
